

ACCENT STRIPS

RGB & BLACK RGB

The Accent Strip RGB is a very thin, LED-circuit-strip-tape with nine bright RGB (Red, Blue & Green) LEDs. It can be mounted to almost any surface using its built-in adhesive tape. The Accent Strip RGB can be used in various indoor applications; at home, in the office, a retail environment or any various compact space. With the use of the easy-to-use control box users can select between 7 colors and 3 operational modes.
