

## Z-390 Fazer

The Z-390 Fazer is a compact and powerful water-based haze generator designed suitable for nightclub installations, theaters, or mobile use. The unit features impressive operational efficiency allowing for up to eight hours of continuous operation on maximum output using the included 4 liters fluid tank reservoir. The unit also features Antari's unique built-in self-cleaning system that keeps the Z-390 functioning reliably day in, day out. Versatile control options include integrated Electronic Timer, DMX, Manual and Optional Wireless Control.
